

HARM
REDUCTION

DID YOU
KNOW
THAT [...]

11.3 MILLION people worldwide
inject drugs.

> 60% of these people are either infected
with HIV or hepatitis C – or both.

These infections caused half of all
585,000 drug-related deaths
in 2017.

HARM REDUCTION SAVE LIVES

The provision of **Harm Reduction services** helps people who use drugs and the community to protect their health and wellbeing.
