

Feb. 12th 2021:

**16 tons of cocaine at Hamburg port: The largest seizure of Cocaine ever within the EU.**

**TO PRODUCE THIS AMOUNT OF COCAINE, IT TAKES...**

**...around 1300 metric tons  
of solid chemicals**

like cement, potassium permanganate,  
caustic soda or calcium chloride

**THIS CORRESPONDS TO  
115 TRUCKS**

**...6,9 million liters  
of liquid chemicals**

like gasoline, sulphuric acid, ammonia,  
hydrochloric acid or organic solvents

THIS CORRESPONDS TO  
**38 TRAILERS**

# **...tons of toxic chemicals dumped from numerous**

tiny cocaine labs hidden in tropical forests in Latin America. This is creating ecological disaster zones both in forests and waters.
